DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, claims 1-9 and 22-25 in the reply filed on 6/30/2008 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 10-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/30/2008.

Claim Rejections - 35 USC § 112

3. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 7-9 and 22-24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tilton et al (US 2003/0085815) (see figures 7-12).

6. Claims 1, 7-9, 22 and 23 are rejected under 35 U.S.C. 102(bb) as being clearly anticipated by Glotin et al (US 3,939,705) (see figures 2 and 8).
7. Claims 1, 7-9, 22 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Meynier (US 5,355,952) (see figures 2-4).

Allowable Subject Matter

8. Claims 3-6 are allowed.
9. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Specification

10. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract of the disclosure is objected to because the abstract exceeds 150 words and the word "orientation means" should be avoided. Correction is required. See MPEP § 608.01(b).

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
